Re: TREE LOGGING IN THE COMMUNITY

---

## LANDS & ESTATES DEPARTMENT

Any community members that are going to have their property logged by a logging company should contact the Survey department immediately prior to any cutting of trees. Handing a copy of your property survey plan to the logger will not suffice due to the fact that they don't have the equipment necessary to locate these property markers. In some cases these markers are missing or a Boundary Survey of the area needs to be completed before any tree cutting can take place. This will ensure that surrounding property owners lands don't have any trees cut down by the logging company on their lands.

If you have any questions or want to schedule a Boundary Survey , please contact the Lands and Estates office at 519-652-3244.

Thank You .

Lands & Estates,  
Survey Dept.
